

The ContinU Plus Academy intends to use the funding received from the 16-19 Tuition Fund to prioritise support for disadvantaged pupils by providing additional, specialist support for post-16 pupils in English. Due to staff absence, specialist support is required to prevent the learning gaps widening for our pupils and causing further disadvantage. The funding will be used to deliver small group tuition to learners with low prior attainment - pupils who did not achieve grade 4 or above in GCSE English (Summer 2020). A qualified English teacher will be sought to provide 'drop in' sessions for pupils. This tuition will focus on filling the gaps in learning identified by the existing team and preparing pupils for assessment – either via examination or through centre assessment. The direct costs incurred will be based around the staffing costs and are expected to be approximately £1800. This tuition will take place within the 2020 to 2021 academic year.
